

IP TRANSIT

Formally UPC Business, we have over 15 years' experience in the communications industry and are one of the largest business to business communications service providers in Ireland.

Our IP Transit services are tailored to the needs of large companies that use their own autonomous system (AS). These companies are connected to the Internet using their own IP address pools (minimum /24) and AS without having to concern themselves with the complexities of Internet routing.

WHY IP TRANSIT?

Our Virgin Media national network offers redundant connections to the Internet, meaning we can guarantee a high level of national and international availability.

Bandwidths of up to 10 Gbit/s are available for IP Transit. Our multi-platform and multi-access infrastructures offer corporate customers a wide selection of viable redundancy concepts.

We are one of the largest communications service providers in Ireland, with a very strong presence in Dublin, Cork, Galway, Limerick, Mullingar, Sligo, Athlone, Kilkenny, Carlow and Waterford. We are committed to investing in our Network, systems and people to provide high quality services.

ABOUT VIRGIN MEDIA BUSINESS

At Virgin Media Business we offer innovative, cost-competitive bundles and bespoke solutions to large blue chip corporations, public sector organisations, small office/home offices (SoHo), small and medium sized businesses (SME's) and carriers.

Our competitive advantage lies in both our high capacity optical Fibre network (exclusively owned within Ireland with extensive reach) and the breadth of our product portfolio, which spans the complete spectrum of business communications.
