

# CLOUD IX

## SECURE, RELIABLE, PRIVATE CONNECTION

Here at Virgin Media Business we have over 15 years' experience in the communications industry and are one of the largest business to business communications service providers in Ireland.

With the digital revolution in full swing in Ireland you shouldn't have to send your data and apps over an unsecured public connection just to improve your cloud's performance, Virgin Media Business' Cloud IX offers your business the perfect solution for securely and privately connecting to the top Cloud Service Providers (CSPs).

### CLOUD IX

Cloud IX extends your on-premises network helping your business connect to the leading Cloud Service Providers (CSPs) from your Virgin Media Business network simply, securely and reliably. Cloud IX provides low latency, highly available connections that enable you to reliably transfer data between your on-premises and Virtual Private Cloud networks. Combined with the speed and reliability of our network, it keeps your cloud-based applications responsive to your increasing business demands.

Our secure Cloud IX solution uses the high performance of our private Multiprotocol Label Switching (MPLS) based VPN core network to securely link your business to cloud service providers (CSPs) around the world; such as Microsoft Azure, Google Cloud and Amazon Web Services. Our solution connects multiple clouds from different providers with secure high-speed virtual connections, helping your business optimise cloud resources for your applications.

### THE BENEFITS OF CLOUD IX

- **Security:** keeps data safe as traffic is private and completely separate from the public internet
- **Scalability:** let your connection to the cloud grow hand in hand with your business
- **Direct:** Direct connectivity into some of the world's largest cloud service providers
- **Service Assurance:** no longer dependent on an internet (best effort) service but a dedicated service with strong SLA's
- **Managed Service:** your connection to the cloud is monitored 24\*7

**ABOUT VIRGIN MEDIA BUSINESS**

Virgin Media is part of Liberty Global, the world's largest international cable company, with operations in more than 30 countries. We offer innovative, cost competitive bundles and bespoke solutions to large blue chip corporations, public sector organizations, small office/home office (SoHo), small and medium sized businesses (SME's) and carriers from dedicated broadband products and solutions, security, TV and WiFi for both single and multi-site premises.

Virgin Media owns a national cable network in Ireland offering video, broadband internet and telephony services to residential, business and public sector customers across Ireland.

As one of the largest telecoms providers in Ireland, we have a very strong presence in Dublin, Cork, Wexford, Galway, Limerick, Mullingar, Sligo, Athlone, Kilkenny, Carlow and Waterford. We are committed to investing in our network, systems and people to provide high quality services to our customers.
