

METRO ETHERNET SOLUTIONS

Formally UPC Business, we have over 15 years' experience in the communications industry and are one of the largest business to business communications service providers in Ireland.

Our Metro Ethernet provides you with dedicated Layer 2 connectivity between your sites. If you have more than two sites and require a WAN Solution then we can provide the connectivity between your HQ and regional sites and also provide access to datacentres for your cloud services.

These solutions are tailored to fit your requirements, taking into account resiliency & disaster recovery options if required. With scalable and uninterrupted bandwidth increases you can feel confident that as your business grows we can meet your data demands.

METRO ETHERNET (P2P) SOLUTIONS

Our dedicated Point to Point (P2P) – fully transparent Layer2 connection provides high bandwidth connectivity on a dedicated Fibre pair between your sites. This service can be presented optically (SM or MM) or electrically (RJ45) on a fully managed CPE.

WIDE AREA NETWORK (WAN) SOLUTIONS

Companies are continually deploying more bandwidth intensive applications, such as Big Data, voice, video, networked storage, distance learning, medical imaging, video conferencing and CAD/CAM applications, as well as hosted applications such as data backup.

WAN Solutions using Ethernet technology delivers a cost effective, high-speed connectivity for metropolitan area network (MAN) and wide area network (WAN) applications.

WHY USE WAN SOLUTIONS?

We provide cost effective, secure high speed WAN Ethernet services on our National NGN (Next Generation Network).

These solutions offer a high degree of flexibility, security and scalability. Networks at diverse locations can be connected at Ethernet speeds ranging from 10Mbps to 10Gbps and higher.

Benefits of WAN Solutions include:

- ✓ Reduced Costs
- ✓ VLAN Support
- ✓ Dedicated Support Services
- ✓ Bandwidth options ranging from 10Mbps to 10Gbps and more
- ✓ 100% transparency on Ethernet circuits

Features of WAN Solutions include:

- ✓ Connectivity between offices, branches or data centres
- ✓ Uncontended bandwidth – non shared dedicated connection
- ✓ Enabler of additional services such as Internet, VoIP and cloud applications
- ✓ Service resilience and redundancy options
- ✓ Fully managed if required
- ✓ Guaranteed Service Levels

We offer top class support for our WAN Solutions with dedicated support services available 24 hours a day, 365 days a year as well as rapid remote diagnosis and resolutions.

ABOUT VIRGIN MEDIA BUSINESS

At Virgin Media Business we offer innovative, cost-competitive bundles and bespoke solutions to large blue chip corporations, public sector organisations, small office/home offices (SoHo), small and medium sized businesses (SME's) and carriers.

Our competitive advantage lies in both our high capacity optical Fibre network (exclusively owned within Ireland with extensive reach) and the breadth of our product portfolio, which spans the complete spectrum of business communications.

As one of the largest communications service providers in Ireland, we have a very strong presence in Dublin, Cork, Galway, Limerick, Mullingar, Sligo, Athlone, Kilkenny, Carlow and Waterford. We are committed to investing in our Network, systems and people to provide high quality services.
