Wi-Fi Solutions

bitbuzz
LIFE WITHOUT WIRES

In 2014 Bitbuzz joined Virgin Media Business, this new partnership will to help to expand their offering and provide and even better service to customers.

At Bitbuzz we offer a fast, secure Wi-Fi experience that is easy to get on to and works with multiple devices. Over our 11 years in business we have seen year on year growth in areas including hotels, hospitals, schools and cafes and bars. Our easily accessible Wi-Fi is one of the main reasons we have become Ireland's busiest Wi-Fi provider.

BITBUZZ WI-FI

We understand that user's demands will always be changing, so we work hard to ensure our service not only meets the needs of today's Wi-Fi users but can grow with future expectations and requirements.

We look at the full picture; surveying your property to understand usage patterns and requirements. We look at coverage, capacity and speed to ensure your Wi-Fi solution works exactly the way you want it to.

Plus we offer some great additional customer engagement features to help capture your customers email addresses and direct them to your website, greatly increasing your web traffic.

Selecting Bitbuzz as your Wi-Fi partner will provide you with the comfort of knowing that your customers will have an enjoyable Wi-Fi experience and that you are working with a reliable partner who will always strive to deliver an up to date technical solution. You can also rest assured that we follow all EU and local internet and data protection laws including the Digital Economy Bill 2012 (UK) and Communications (Retention of Data) Act 2011.

Benefits of using Bitbuzz:

- No install or replacement costs
- Capture vital marketing data
- Fully managed Cisco system
- Always on support for you and your customers
- 99.9% uptime for our customers
- Hassle free connection with no vouchers
- Fixed pricing with no usage limits
- Full end to end management

ABOUT BITBUZZ

Bitbuzz was founded in Ireland in 2004 and quickly became Irelands leading Wi-Fi provider. We expanded into the UK in 2010 and today carry over 50% of all Irish Public Wi-Fi traffic and have locations across Ireland and the United Kingdom.

At Bitbuzz we strive to offer a fast, secure, easy to use Wi-Fi service that is both fully managed and supported. We offer a number of fully managed solutions designed around hospitality, education, schools, airports and cafe bars as well as roaming solutions to local and foreign network operators.

Our solutions are built with our clients business needs and the end users experience in mind.
